UniFi Network Application

- Installationsskript UniFi Network application für Ubuntu/Debian

Installationsskript UniFi Network application für Ubuntu/Debian

Instructions:

1) Copy the link location of the script.

2) SSH into your Ubuntu/Debian machine, and login as root. (Ubuntu | `sudo -i` | Debian | `su`)

2a) Make sure the ca-certificates package is installed.

```
apt-get update; apt-get install ca-certificates curl -y
```

3) Download and execute the script! *(change it to your wanted version)*

```
curl -sO https://get.glennr.nl/unifi/install/unifi-6.5.55.sh && bash unifi-6.5.55.sh
```

> Install the latest and greatest UniFi Network application with 1 line. (copy paste)

> `curl -sO https://get.glennr.nl/unifi/install/install_latest/unifi-latest.sh && bash unifi-latest.sh`
